-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

1. Applicant's amendment of 7/12/2004 has been received and reviewed. The amendment cancelled claims 2, 3, and 7, amended claim 1, added new claims 8-13, and included a substitute specification which will be entered into the case. Currently, claims 1 and 8-13 are pending.

Claim Objections

2. The abstract of the disclosure is objected to because it exceeds 150 words. Correction is required. See MPEP § 608.01(b). Claim 11 is objected to because it is not grammatically correct. A suggestion is as follows: delete "of the fixing means on the cap body and the sunshade cover" and insert --the sunshade cover may be held in the stored position by either side of the cap.--

Specification

3. The substitute specification filed 7/12/04 has been entered.

4. The disclosure is objected to because of the following informalities: pg.1, line 8: delete "sunburnt" and insert --sunburned--, pg.3, line 3: delete "both sided" and insert --double sided--. Please delete all occurrences of "both sided" in the specification and replace with --double sided--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claim 10 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 10 recites the fixing means comprises clips press studs.

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claim 10 contains the trademark/trade name velcro. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe burred fastener or looped fastener (as disclosed in specification) and, accordingly, the identification/description is indefinite.

Response to Arguments

9. As pointed out in Applicant's arguments, the advisory action of 1/30/04 indicated that claim 3 would be allowable if rewritten to include the suggested claim language. However, upon further review, it is determined that claim 3 does not clearly recite the novel embodiment described in the specification. This embodiment is drawn to the combination of the stopper pin/axle and the hook and loop positioned on the cap and on the sunshade cover. If claim 3 were amended to include this combination, as well as the objections outlined above under the Claim Objections heading, claim 3 would recite novel patentable subject matter.

Applicant's arguments with respect to claims 1-3 and 7 have been considered but are moot in view of the new grounds of rejection.

Allowable Subject Matter

10. Claims 1, 8, 9, 12, and 13 are allowed.

11. Claim 10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

12. Claim 11 is objected to as discussed above but would be allowable if amended to overcome the objections.

Conclusion

13. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
